Rooms: Fontaine B, C, D
Friday, April 20, 2018 07:00 – 17:30
Saturday, April 21, 2018 07:30 – 16:00
Pfizer Canada Inc. is the Canadian operation of Pfizer Inc., one of the world’s leading biopharmaceutical companies. Our diversified health care portfolio includes some of the world’s best known and most prescribed medicines and vaccines. At Pfizer, we’re working together for a healthier world. To learn more about Pfizer Canada, visit pfizer.ca.

The Resident Geriatrics Interest Group (RGIG) connects trainees from across Canada to facilitate networking and mentoring, while initiating and supporting advocacy projects for older adults at local and national levels. There is a RGIG executive that liaises directly with the Canadian Geriatrics Society, as well as local chapters based at universities from coast to coast that promote the care of older adults in their community. Our membership includes trainees from internal medicine, family medicine, care of the elderly, geriatric psychiatry and geriatric medicine programs.

The National Geriatrics Interest Group (NGIG) seeks to improve the medical care of older Canadians through the promotion of geriatric education in Canadian medical schools through national initiatives and by providing financial, academic, leadership, and mentorship resources to Canadian medical students interested in this dynamic field. It is comprised of the NGIG executive team and the local Geriatric Interest Groups (GIGs) across Canada.

Québec Network for Research on Aging – The mission of the RQRV is to support interdisciplinary research on aging and to promote the maintenance of a critical mass of researchers, help increase overall research capacity, and stimulate the creation of research partnerships in this field. The Network’s ultimate goal is to increase knowledge about the biological, clinical, populational, social, and societal aspects of aging.
Sponsors & Exhibitors

Canadian Association on Gerontology

Association canadienne de gérontologie

The Canadian Association on Gerontology is Canada’s premier multidisciplinary association in the field of aging. Members benefit from discounted conference fees, a free subscription to the Canadian Journal on Aging, eligibility for awards and prizes, and much more. We have an active Student Connection and special rates for students and those 65+! Learn about membership and our CAG2018 conference, Making It Matter: Mobilizing Aging Research, Practice & Policy, from October 18 to 20 in Vancouver, BC, Canada!

CIHR IRSC

Canadian Institutes of Health Research
Instituts de recherche en santé du Canada

The Canadian Institutes of Health Research (CIHR) is Canada’s health research investment agency. Its mandate is to excel, according to internationally accepted standards of scientific excellence, in the creation of new knowledge and its translation into improved health for Canadians, more effective health services and products and a strengthened Canadian health care system. The Institute of Aging, one of thirteen institutes of CIHR, supports research on the aging process (biological, psychological and sociological), age-related diseases and disabilities, conditions associated with aging, emerging needs of people as they age, and health services to the elderly population.

GSK

GSK is a science-led global healthcare company with a special purpose: to help people do more, feel better, live longer. We have 3 global businesses that research, develop and manufacture innovative pharmaceutical medicines, vaccines and consumer healthcare products. We aim to bring differentiated, high-quality and needed healthcare products to as many people as possible, with our 3 global businesses, scientific and technical know-how and talented people.

GSK’s history in Canada dates back to 1902. GSK has two divisional headquarters in Mississauga, Ontario and Laval, Quebec, and an administrative office in Quebec City as well as two manufacturing facilities in Mississauga, Ontario and in Ste-Foy, Québec. GSK employs approximately 2,000 full-time employees across the country and has invested more than $2 billion since 2001 in Canadian pharmaceutical and vaccines R&D.
Roche is a leader in the research and development of pharmaceutical and diagnostic products for a range of chronic and life-threatening health conditions.

At Amgen, our mission is to serve patients. We dedicate our days to turning the tide on serious, life-interrupting illnesses—pushing the boundaries of science to transform medicine.

Canopy Growth Corporation is the largest diversified cannabis company in the world, operating with a track record of global sector leadership and integrity. We operate a collection of diverse brands and curated cannabis varieties in oil and capsule forms.

We are clinical and educational leaders with a variety of programs to support education of the healthcare sector.

Nestlé Health Science is a global company, focused on advancing the role of nutritional therapy to change the course of health management for consumers, patients and our partners in health care.

The Royal College of Physicians and Surgeons of Canada protects the health of Canadians by helping physicians build skills, knowledge and expertise in their specialties. Our Maintenance of Certification Program supports specialist physicians along their paths of lifelong learning and professional development.
Astellas Pharma Canada, Inc., headquartered in Markham, ON, is a Canadian affiliate of Tokyo-based Astellas Pharma Inc. Astellas is dedicated to improving the health of people around the world through the provision of innovative and reliable pharmaceutical products. In Canada, Astellas has an intense commercial focus on four therapeutic areas – Urology, Immunology, Infectious Disease and Oncology. For more information about Astellas Pharma Canada, Inc., please visit the corporate website: www.astellas.ca.

**MEMBERSHIP**

**Why join us?** Become part of a vibrant national organization that is addressing **THE defining health care challenge of our generation** – the provision of compassionate, effective and sustainable health care for the rapidly growing numbers of older Canadians. What is the Canadian Geriatrics Society (CGS) doing to improve the care of seniors?

- Advocates, promotes and contributes to the development of national initiatives
- Supports the student National Geriatric Interest Groups (NGIGs) and the Resident Geriatric Interest Groups (RGIGs)
- Advocates and promotes leading best practices
- Reviews and endorses national initiatives
- Develops national Special Interest Groups (SIGs)
- Promotes research and education
It takes community…

Pfizer Canada strives to profoundly impact the health of Canadians through the discovery, development and delivery of medicines, vaccines and consumer health products.

We believe in supporting the people in the communities where we work and live through our community investment partnerships.

We bring essential medicines to the vulnerable and we lend a hand to those in need.

Through our partnerships we offer the possibility of a healthier world.
Turning Innovative Science into Value for Patients

Astellas is committed to turning innovative science into medical solutions that bring value and hope to patients worldwide. Every day, we work together to address unmet medical needs and help people living with cancer, overactive bladder, heart disease and transplants, among other conditions. We remain dedicated to meeting patients’ needs, and our support for them will never waver.

At Astellas, we’re focused on making changing tomorrow a reality. www.astellas.ca

Canadian Geriatrics Society

JOURNALS

The Canadian Geriatrics Journal (CGJ) is a peer-reviewed publication that is a home for innovative aging research of a high quality aimed at improving the health and the care provided to older persons residing in Canada and outside our borders. While we gratefully accept submissions from researchers outside our country, we are committed to encouraging aging research by Canadians. The CGJ is targeted to family physicians with training or an interest in the care of older persons, specialists in geriatric medicine, geriatric psychiatrists, and members of other health disciplines with a focus on gerontology. www.cgjonline.ca.

The Canadian Geriatrics Society Journal of CME publishes concise, clinically practical papers that are subject to peer review. This journal is wholly controlled by the CGS, with our only purpose being to satisfy the educational needs of our members. The Canadian Geriatrics Society Journal of CME can be accessed via www.geriatricsjournal.ca.

SPECIAL INTEREST GROUPS (SIGS)

A Special Interest Group (SIG) is a community within a larger organization with a shared interest in advancing a specific area of knowledge, learning or technology where members cooperate to effect or to produce solutions within their particular field, communicate and meet, and organize activities within the Society. SIGs of the CGS have the potential to create tremendous benefit to our members by fostering active communication and networking, shaping future leadership activities in specific topics, and creating “bodies of expertise” within our Society. SIGs will host annual meetings during the CGS scientific meetings to network and discuss specific areas of interest regarding older adult care. SIGs are open to all CGS members and work annually to develop symposia proposals for the CGS Annual Scientific Meeting program and present collaborative project ideas to the CGS. If you are interested in participating, please contact cgs@secretariatcentral.com.
